

Overview

Black Vox Internal Mic audio recorder is a premium audio recording solution and specifically designed for Tactical use.

Extremely effective device, easy to use 1 button activation, record crystal clear audio from upto 40 feet away.

Extensively tested device, originally built for the Metropolitan Police and used by over 500 Investigators worldwide since launch in 2017.

Device comes supplied with a custom-built magnetic offload and charge port; this provides the device with added security in the event it is discovered.

The Black Vox Internal Mic is used and endorsed by many US LE agencies and is used by many Private Investigation training centres for covert audio recording training modules.

Onboard software settings allows users to adjust sensitivity of mic.

Configuring time and date file stamps can only be achieved through a Windows Computer.
